Attachment to Notice of Allowability

1. Applicants' submission filed 9/16/2004 has been entered. The amendment to claim 2 has removed the limitation directed to a "composition", and now recites only an ethylene-based copolymer. Applicants' response filed 2/25/2004 discusses the distinction between an ethylene based copolymer (which refers to a single polymer) and a copolymer composition (which refers to a blend), and would apply equally to amended claim 2. Accordingly, each of claims 1 and 2 as currently amended are directed to an ethylene-based copolymer.

2. The following is an examiner's statement of reasons for allowance. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Copolymers comprising units derived from ethylene, $\geq C_4$ alpha olefin and cycloolefin are known in the art. Examples of such copolymers may be found in Sagane et al. (US 5,807,948), which exemplifies ethylene-butene-ethylidenenorbornene copolymers. However, the prior art cited on this record has not described the claimed copolymer which includes two decane-fractionable copolymer components wherein each component has specific physical properties. No teaching or motivation can be

found to modify the reference methods to make a polymer within the scope of the instant claims.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roberto Rábago whose telephone number is (571) 272-1109. The examiner can normally be reached on Monday - Friday from 8:30 am - 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
